

ComLink LT^{3G} Enable Eyes™ Configuration

DEVICE SPECIFICATIONS

- ▲ DIMENSIONS: 11.5"H x 11.8"W x 3.9"D
- ▲ WEIGHT: 7.9 LBS.
- ▲ DISPLAY: 12.1" SUPER SHARP 1024 x 768
- ▲ PROCESSOR: POWERFUL 1.5 GHZ INTEL® CORE2DUO™ PROCESSOR
- ▲ MEMORY: 2 GB OF RAM MEMORY
- ▲ STORAGE: 160 GB HDD
- ▲ OPERATING SYSTEM: WINDOWS XP PRO®
- ▲ BATTERY TYPE: LI-ION WITH EXCEPTIONAL RUNTIME
- ▲ PORTS: USB (4), ETHERNET, MODEM, eSATA, 1394 FIREWIRE, AUDITORY PROMPT SPEAKER, MIC AND HEAD PHONE JACKS

COMLINK LT^{3G} ENABLE EYES™ STANDARD CONFIGURATION

INCLUDES

- ▲ ENABLE EYES™ EYE TRACKING MODULE
- ▲ THE GRID 2 COMMUNICATION SOFTWARE WITH SYMBOLSTIX SYMBOLS (TOBII COMMUNICATOR WITH SYMBOLSTIX SYMBOLS AVAILABLE AS AN OPTION)
- ▲ HUGE LIBRARY OF PRE-BUILT PAGE SETS

- ▲ BUILT-IN GEWA® ECU FOR TV, PHONE, STEREO CONTROL AND LIGHTING CONTROL
- ▲ BUILT-IN WI-FI 802.11 A/B/G/N AND BLUETOOTH 2.0 WIRELESS
- ▲ SINGLE AND DUAL SWITCH SCANNING INPUT PROVIDED AT NO CHARGE
- ▲ FRS REMOTE HELP DESK CAPABILITY

What Makes the ComLink LT^{3G} Enable Eyes™ Eye Tracking System "Better By Design"?

POWERFUL PROCESSOR

The powerful 1.5GHz Intel® Core2Duo™ processor together with 2GB of RAM provides ample processing power to run communications software, Skype™ video and still run your favorite processor intensive applications. Try that with the other guys!

ULTRA HIGH CAPACITY BATTERY SYSTEM

Our fully-integrated high capacity battery system maximizes runtimes allowing users to remain mobile even under the most demanding environments. The system utilizes light weight Li-ion batteries that deliver an impressive 11,400 mAh of power making the ComLink LT^{3G} Enable Eyes™ system an industry leader in runtime and mobility.

COMPACT WHEELCHAIR MOUNTABLE SOLUTION

The compact, lightweight design of the ComLink LT^{3G} Enable Eyes™ eye tracking system, together with its integrated high capacity battery system makes it ideal for wheelchair mounting. The motion tolerance and auto loading, one-time calibration features of the Enable Eyes™ eye tracking input module combine for a reliable and accurate eye control experience.

COMPLETE WINDOWS ACCESS USING EYE TRACKING INPUT

The ComLink LT^{3G} Enable Eyes™ eye tracking system provides full access to all Microsoft® Windows® compatible applications, not just certain "specially enabled" applications like other products. Don't be restricted to a select few applications when the ComLink LT^{3G} Enable Eyes™ system lets you decide.

LARGE 12.1" DAYLIGHT VIEWABLE DISPLAY

The large 12.1" Daylight Viewable touch display offers vivid color and maximum viewability in all lighting conditions, including outdoors.

FRS FLEXABLE™ HANDLE

The patent pending FRS FlexABLE Handle is exceptionally easy to grip even for those with very limited dexterity, providing a new level of independence for many users.

DUAL AMPLIFIED SPEAKERS

We have engineered the Dual Amplified Speakers to provide exceptionally loud and clear voice output with a rich high quality tone that will not break up at high volume levels like many others do.

FRS REMOTE HELP DESK

The built-in FRS Remote Help Desk feature allows our skilled technical support team members to take control of your device remotely to solve technical issues, upload and download files or page sets or just show you how to perform a programming function right on your device.

AUTOMATIC USER FILES BACKUP SYSTEM

The ComLink LT^{3G} Automatic User Files Backup System protects critical files from accidental deletion or changes.

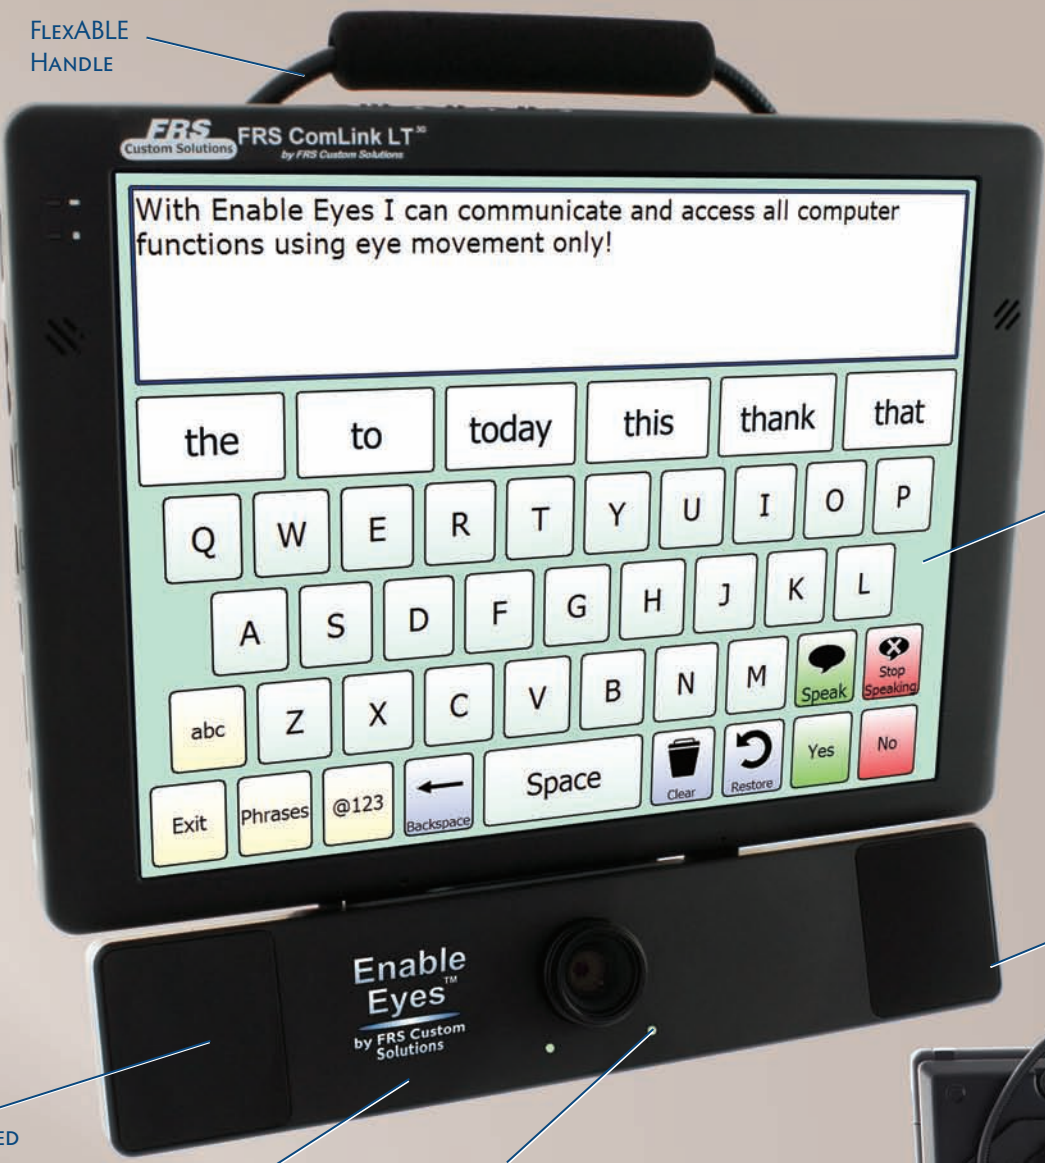

DURABLE ONE-PIECE ENABLE EYES™ EYE TRACKING MODULE

The Durable yet lightweight One-Piece aluminum enclosure of the Enable Eyes™ eye tracking module sets it apart from other systems. The unique FRS quick attach bracket makes switching to and from Eye Tracking input fast and easy, without tools.

Introducing the all new 3rd Generation... ComLink LT^{3G} Enable Eyes™
